

Dear Hiring Manager,

I am writing to apply for the Junior Software Engineer position at Bending Spoons, a highly respected and innovative company with over 90 million active users and half a billion total downloads. As a highly motivated and passionate software engineer, I am confident that my skills in object-oriented programming (OOP), Python, machine learning, C#, and Java make me an excellent fit for this role.

I have a strong foundation in OOP principles and have experience using C#, and Java to build projects and Python to make machine learning models. I have also gained expertise in database management, with experience working with SQL databases. I am always eager to learn about new technologies and have a strong ability to investigate and pick up new concepts on my own.

I am highly motivated and passionate about software engineering and am constantly reading and learning about the latest developments in the field. I have a strong drive to succeed and am highly energetic and hard-working. I am excited about the opportunity to join Bending Spoons and contribute to the company's mission of becoming the world's best app developer. It would be an honour to work at such a prestigious and successful company and be a part of its innovative and collaborative team.

In addition to my technical skills, I am a team player with excellent communication skills. I am humble and open to feedback and always willing to support my team in any way I can. I have strong attention to detail and am committed to developing quality user experiences. I am also highly curious and proactive, always seeking new opportunities and exploring ideas.

Thank you for considering my application. I am eager to apply my skills and expertise to help drive Bending Spoons' continued success and be a part of such a talented and innovative team. I look forward to the opportunity to discuss this position further with you.

Sincerely,

Ismayilzada Ismayil
