

Dear Hiring Manager,

I am writing to express my interest in the software developer position at Interactive Brokers LLC. I am a highly motivated and enthusiastic software developer with a Bachelor's degree in Information and Communication Technologies and currently pursuing a Master's degree in the same field at Budapest University of Technology and Economics. I have a strong technical background, with experience in core Java and a desire to learn Java Swing. I have also worked as a software developer at Turanbank OJSC and as a research intern at National Aerospace Agency Natural Resources Space Research Institute.

I have excellent English communication skills, both written and verbal, and have demonstrated my ability to translate technical requirements into application code, test and debug applications, and work with QA staff over risk and regression impact. My experience in troubleshooting and repairing technical problems and my ability to accurately utilize technology to drive productivity and continuous improvement make me an ideal fit for the role.

I am excited about the opportunity to be part of a dynamic and results-oriented team at Interactive Brokers LLC. Your company's focus on advanced technology and automation to equip clients with a sophisticated platform to manage their investments is truly inspiring. The benefits package, including a base salary pegged to Euro, discretionary annual bonus, private healthcare insurance, and a hybrid way of working, make this opportunity even more appealing.

Thank you for considering my application. I look forward to the opportunity to further discuss my qualifications and how I can contribute to your team.

Sincerely,

Ismayil Ismayilzada
