

Greetings and salutations, friend,
I hope this letter finds you and finds you well.

My name is Ismayilzada Ismayil and I am a last year undergraduate student at Azerbaijan Oil and Industry University Baku, Azerbaijan. I am writing to apply for a Bursary & Success Internship in Engineering Technology. This opportunity attracted me because I have a natural passion for technologies and software which I am furthering in my studies.

I have had experience at Turanbank ASC, as I started my internship as just an intern but later because of my dedication and results, I was promoted to the legal worker status. I developed software for Core Banking Systems (ABS), worked with Oracle Database, wrote SQL queries and created packages, views, functions and procedures.

But I know that I still have a long way to go before I can even call myself a decent software engineer. So, to better myself, and to widen my horizons and network, I am writing to apply for a Bursary & Success Internship in Engineering Technology.

I feel I would be an asset to your organization because I am optimistic and open-minded, which would be welcome in every kind of work. I am skilled in critical thinking and peer-to-peer communication which I developed through teamwork with my groupmates and work colleagues.

In conclusion, I hope to get the opportunity to experience an internship with you. Thank you for taking the time to review my application. Please contact me at either through Gmail: ismayil.ismayilzada.r@gmail.com or my phone number: +994705127952 if you have any questions for me. I look forward to hearing from you soon.

Yours sincerely,
Ismayilzada Ismayil
