

Dear Hiring Manager,

I am excited to apply for the AI Infrastructure Intern position at Continental AM Budapest Artificial Intelligence Development Center. As a student studying Computer Science at the Budapest University of Technology and Economics, I am eager to join a team dedicated to developing cutting-edge techniques to sense and understand the vehicle environment, aiming to eliminate fatal accidents on the world's roads.

I have experience with Windows servers and am proficient in Python programming. I am also familiar with SQL database management systems. In my current studies, I have completed laboratory work which focuses on big data and machine learning which I believe makes me well-suited for this position. My English language skills are strong, and I am available to work a minimum of 24 hours per week between 9am and 5pm.

I am particularly interested in the opportunity to work with infrastructure automation tools like Ansible, and have some familiarity with cloud ecosystems. I am a team player with good communication skills, and am comfortable working in an agile team environment. I am eager to learn about industry leading technologies, patterns, processes, and best practices, and to contribute to the operation and maintenance of the HPC cluster at Continental.

I will graduate in the next year, and am eager to continue my studies while working at Continental. In addition to the skills and experience I have mentioned, I am excited to bring my enthusiasm and drive to work on innovative projects that have the potential to save lives on the roads. I am confident that my skills and passion make me a strong fit for this internship, and I look forward to the opportunity to contribute to the team at Continental.

Thank you for considering my application. I have included a link to my GitHub(<https://github.com/Isi-Atash>) and linkedin(<https://www.linkedin.com/in/isi-atash-523266209/>) account for your review, and am happy to provide any additional information you may need. If I have applied to other positions, Continental is my top choice.

Sincerely,

Ismayilzada Ismayil
