

Dear Hiring Manager,

I am writing to apply for the .NET Developer position at Deloitte. I have 2-3 years of experience in the C# .NET world, including experience with Web API, Entity Framework, and MSSQL. I am skilled in working with databases and ORMs, and I pride myself on being a good team player who can manage my tasks independently and communicate effectively. I am fluent in Hungarian and English and have strong communication skills.

In my previous role as a Software Developer at Turanbank OJSC, I gained experience in the banking industry, including the development of new software modules for Core Banking Systems and the maintenance and optimization of legacy code. I also have experience creating views, functions, and stored procedures, as well as writing optimized SQL queries for integration with other applications. I am comfortable working with databases, including the creation of triggers for automation.

As a .NET Developer at Deloitte, I am excited to have the opportunity to work with the latest technologies in the .NET and web domain. I am confident in my ability to write code for new features, participate in all areas of software development, and analyze and resolve programming issues. I am also excited to work in a well-refined SCRUM environment and to have the opportunity to learn from more senior colleagues and participate in the company's training program.

I am attracted to Deloitte for the opportunity to work in a challenging multinational environment where personal development and growth are encouraged. I am also excited about the hybrid working environment, competitive salary and benefits, and regular team events. As a .NET Developer with experience in the banking industry, I am confident that I can make a valuable contribution to your team and help to develop amazing software. Thank you for considering my application. I look forward to discussing this opportunity further.

Sincerely,

Ismayilzada Ismayil
